NEWSLETTER
MAY 2009

Notes from the Homeroom:

This month, the 200 Cluster welcomed some new students into the homerooms. Although change is hard, the students have welcomed them warmly. Sunny the Therapy Dog visited Lighthouse again this month and was also warmly welcomed by the students. Recess continues to be the most popular time of the day, especially now that it is warm out. Everyone enjoys the time on the playground and sports court.

The students continue to work hard in their academics. In English Language Arts, each student is working on functionally adaptive skills, and learning new vocabulary that is helpful to them in the community. In Mathematics, they continue to work with the students on applying learned skills to real life situations, such as shopping at the AMP. In History and Science, the kids are eagerly learning about the world around them while working on hands-on projects.

Looking forward to June, we will be having our Academic Recognition Awards, Transition Ceremony and Field Day.
