

Lighthouse School®
400 Cluster Newsletter
March 2009

Notes from the Homeroom:

It's finally Spring! We have been very busy this month in the 400 Cluster! We had many motivating activities and there are many more to come. It was also a very busy month academically, in addition to MCAS testing. Students had the chance to attend activities and clubs such as Guitar Hero, Crafts, and home basketball games to cheer on the Lighthouse Breakers. Many of our 400 Cluster students also participated in a Varsity and Junior Varsity Tournament held at the University of Massachusetts in Lowell. The team members received trophies and good sportsmanship awards.

We look forward to the melting snow and more outdoor activities.

Each homeroom is also compiling a scrapbook page for the end of the year. With several students transitioning in June, it gives us the opportunity to discuss future plans and goals.

Additionally, each of our homerooms had their own activity for March. In celebration of the upcoming warmer weather, many of the rooms marked the occasion with movies and ice cream sundaes. This offered additional opportunities to socialize and develop peer relationships.

Happy Spring everyone!
